

FOTOMAPR C100 – GPS/Compass Module for NIKON Digital Cameras

- **Embed location and direction information to your digital photos.**
- **Add pre-defined attributes / Memos to photos**
- **Geotag any photo off-line with QuickMap and view them on Google**

Geo-tagging your images from a select NIKON DSLR cameras has become a whole lot simpler. With the FotoMapr C100, you can now geotag pictures with both location and direction information and integrate them easily with your mapping application. And with our new “Memo Tag” feature, you can tag memos to your photos along with standard GPS information.

FotoMapr L100 is easy to use and connects to your Nikon cameras via Cable. FotoMapr has an available micro SD card to store and log your measurements along with GPS Track logs. The GPS Track logs can then be used to geo-tag images off-line. The FotoMapr is easy to use and recharges through a standard USB port.

FotoMapr-C100 has two models FotoMapr-C101 and FotoMapr-C102 which work with select Nikon cameras.

FM-C101 : This model is compatible with cameras like Nikon D90, D3100,D5000, D5100 and D7000.

FM-C102 : This model is compatible with cameras like Nikon D200,D300, D300s, D700, D2X, D2Xs, D2Hs, D3, D3X and D3s
